Dear Coaches:

On behalf of the WIAA I would like to congratulate you on your player's success and welcome you to the University of Washington Nordstrom Tennis Center and the 2A high school Boys and Girls State Tennis tournament.

As soon as the results of all of the District tournaments are turned in the draws will be completed and posted on the WIAA website. Although the coach's packet and tournament packet for 2009 indicate that in odd years boys will play indoors and even years girls will play indoors; this will not be the format followed due the court allocations allotted us by the University. Due to the fact that our indoor and outdoor court use has been substantially shortened we will be using 8 outdoor courts instead of 6.

Our goal in the scheduling is to expedite as many matches as early as possible with boys and girls playing both in and out. My assistants and I plan to make sure that during the first round (matches 1-8 in all draws) that two players slated to play each other in the next round (matches 9-16) will both play inside or both play outside regardless of where that future match is played. For example, the winners of match #1 Auburn vs Decatur and match #2 Evergreen vs Mt. Rainier will meet in match #9 and losers will meet in match #13. So match #1 and match #2 will both be played at the same site indoor or out. It is probable that by the time we reach matches 17-20 in all draws we will have lost the use of the outdoor courts and so they will, most likely, regardless of previous match assignments, be played indoors.

I apologize for any confusion that this may create but in all fairness I assure you it is the best format.

Yours for Better Tennis,

Kermit Escame
