

The Q &A's below have been submitted in regards to the Team State Golf Format. If you have additional questions please contact Andy Barnes at abarnes@wiaa.com

1. If our school does not qualify as a team, but qualifies 4 individuals may that school be entered in the team competition? **No, a school must qualify its team (5 golfers) in order to be considered a "team" at the state golf championships.**
2. If your team qualifies as a team and you qualify an additional player as an individual can that team sub the individual into the team in the case of a player who is not able to enter the tournament? If so, who would replace the individual? Could someone from that school replace the individual who moved onto the team or would the next individual entrant be moved up? **Yes, but the school must forfeit the individual position. The district can fill the individual spot with the next alternate from their qualifying tournament**
3. May a team who qualifies at the conference level be modified prior the district and/or state tournaments? **Yes, roster changes may happen at a change of level of tournament**
4. If so, when is the deadline for changing the members of the team? **The deadline to submit the roster for the state golf championships is Friday, May 17, 2019 at 12:00pm**
